Concept

Concept [TBC]

[Up to 250 words: the story, the character, and how the clothes are shown. Choose a direction on the right or write your own.]

Looks: 8–12, from several designers. No fast fashion, high-street or stylist's own pieces, so the story meets the rules of most titles we are pitching.

Format: 35mm film and digital, natural light. For Teeth, film only.

Directions to choose from

- **New York, as it is.** The model inside everyday New York rather than in front of it: corner deli, laundromat, diner counter, subway platform, fire escape. The people who work there can appear in frame. Styling that feels found, not placed. This carries over the approach of the Athens concept.
- **A week in the city.** One character over a few days in late October, from morning walks to late dinners. Layered autumn tailoring and outerwear, shot as a diary.
- [Or the stylist's idea: build it together once the stylist is confirmed.]
